big-PI Predictor

RRID:SCR_001599

Type: Tool

Proper Citation

big-PI Predictor (RRID:SCR_001599)

Resource Information

URL: https://mendel.imp.ac.at/gpi/gpi_server.html

Proper Citation: big-PI Predictor (RRID:SCR_001599)

Description: Prediction tool locating potential GPI-modification sites in precursor sequences applied for large-scale protein sequence database searches. The composite prediction function (with separate parametrization for metazoan and protozoan proteins) consists of terms evaluating both amino acid type preferences at sequence positions near a supposed omega-site as well as the concordance with general physical properties encoded in multi-residue correlation within the motif sequence. The latter terms are especially successful in rejecting non-appropriate sequences from consideration. The algorithm has been validated with a self-consistency and two jack-knife tests for the learning set of fully annotated sequences from the SWISS-PROT database as well as with a newly created database big-Pi (more than 300 GPI-motif mutations extracted from original literature sources). The accuracy of predicting the effect of mutations in the GPI sequence motif was above 83 %.

Abbreviations: big-PI Predictor

Synonyms: big-PI Predictor: GPI Modification Site Prediction

Resource Type: analysis service resource, data analysis service, production service resource, service resource

Defining Citation: [PMID:10497036](#), [PMID:10871885](#)

Keywords: prediction, glycoprotein, protein, glycosylphosphatidylinositol, genome annotation, target selection, FASEB list

Availability: Free, Freely available

Resource Name: big-PI Predictor

Resource ID: SCR_001599

Alternate IDs: nlx_153855

Old URLs: http://www.embl.de/beisenha/gpi/gpi_p%20rediction.html

Record Creation Time: 20220129T080208+0000

Record Last Update: 20260821T042527+0000

Ratings and Alerts

No rating or validation information has been found for big-PI Predictor.

No alerts have been found for big-PI Predictor.
