Camino

RRID:SCR_001638

Type: Tool

Proper Citation

Camino (RRID:SCR_001638)

Resource Information

URL: <http://cmic.cs.ucl.ac.uk/camino/>

Proper Citation: Camino (RRID:SCR_001638)

Description: Free, open-source, object-oriented software package for analysis and reconstruction of Diffusion MRI data, tractography and connectivity mapping. The toolkit implements standard techniques, such as diffusion tensor fitting, mapping fractional anisotropy and mean diffusivity, deterministic and probabilistic tractography. It also contains more specialized and cutting-edge techniques, such as Monte-Carlo diffusion simulation, multi-fibre and HARDI reconstruction techniques, multi-fibre PICO, compartment models, and axon density and diameter estimation. Camino has a modular design to enable construction of processing pipelines that include modules from other software packages. The toolkit is primarily designed for unix platforms and structured to enable simple scripting of processing pipelines for batch processing. Most users use linux, MacOS or a unix emulator like cygwin running under windows. However, the core code is written in Java and thus is simple to call from other platforms and programming environments, such as matlab running under unix or windows.

Abbreviations: Camino

Synonyms: UCL Camino Diffusion MRI Toolkit

Resource Type: data processing software, image processing software, software application, software resource, software toolkit

Keywords: diffusion mri, reconstruction, processing, dti, tractography, connectivity mapping

Availability: Free, Available for download, Freely available

Resource Name: Camino

Resource ID: SCR_001638

Alternate IDs: nlx_153907

Alternate URLs: <http://www.nitrc.org/projects/camino>

License: Artistic License v2

Record Creation Time: 20220129T080208+0000

Record Last Update: 20260821T193627+0000

Ratings and Alerts

No rating or validation information has been found for Camino.

No alerts have been found for Camino.
