Proper Citation: FreeSurfer (RRID:SCR_001847)

Description: Open source software suite for processing and analyzing human brain MRI images. Used for reconstruction of brain cortical surface from structural MRI data, and overlay of functional MRI data onto reconstructed surface. Contains automatic structural imaging stream for processing cross sectional and longitudinal data. Provides anatomical analysis tools, including: representation of cortical surface between white and gray matter, representation of the pial surface, segmentation of white matter from rest of brain, skull stripping, B1 bias field correction, nonlinear registration of cortical surface of individual with stereotaxic atlas, labeling of regions of cortical surface, statistical analysis of group morphometry differences, and labeling of subcortical brain structures. Operating System: Linux, macOS.

Abbreviations: FreeSurfer

Resource Type: software resource, data visualization software, software application, image analysis software, data processing software

Defining Citation: [PMID:22248573](#)

Keywords: processing, analysis, human, brain, MRI, image, reconstruction, cortical, surface, fMRI, data

Funding: NCRR U24 RR021382;
NINDS R01 NS052585;
NCRR RR014075

Availability: Free, Available for download, Freely available

Resource Name: FreeSurfer

Resource ID: SCR_001847

Alternate IDs: nif-0000-00304

Alternate URLs: <https://sources.debian.org/src/freesurfer/>,
