SNPMeta

RRID:SCR_002005

Type: Tool

Proper Citation

SNPMeta (RRID:SCR_002005)

Resource Information

URL: <http://www.tc.umn.edu/~konox006/Code/SNPMeta/>

Proper Citation: SNPMeta (RRID:SCR_002005)

Description: A Python and BioPython-based tool to generate metadata for single nucleotide polymorphisms (SNPs) for easy filtering, or submission to SNP databases. Information reported includes gene name, whether the SNP is coding or noncoding, and whether the SNP is synonymous or nonsynonymous. SNPMeta outputs in either a dbSNP submission report format, or a tab-delimited format. There is also a Web-based version available that only annotates with default settings, and only annotates a maximum of 20 SNPs at one time. The script may be downloaded for full functionality.

Abbreviations: SNPMeta

Resource Type: analysis service resource, data analysis service, production service resource, service resource, software resource

Defining Citation: [PMID:24237904](#)

Keywords: single nucleotide polymorphism, coding, noncoding, , synonymous, nonsynonymous, python, biopython, metadata, annotation

Availability: THIS RESOURCE IS NO LONGER IN SERVICE

Resource Name: SNPMeta

Resource ID: SCR_002005

Alternate IDs: OMICS_01923

Record Creation Time: 20220129T080210+0000

Record Last Update: 20260821T193637+0000

Ratings and Alerts

No rating or validation information has been found for SNPMeta.

No alerts have been found for SNPMeta.
