Description: The Parkinsons Disease Society funds research, offers educational information, advice, and support from medical professionals, and runs campaigns with the goal of offering support, raising money, and finding a cure for Parkinsons disease. In addition to funding research, the Society offers a Helpline to support those suffering from Parkinsons and their caregivers, and also offers a range educational materials. The Society has a network of over 330 branches and support groups located across the UK. Additionally, the Society campaigns for and influences government policy and the development of high-quality services at a local and national level.
