World Parkinson Disease Association (RRID:SCR_002035)

Resource Information

URL: <http://www.wpda.org>

Proper Citation: World Parkinson Disease Association (RRID:SCR_002035)

Description: THIS RESOURCE IS NO LONGER IN SERVICE, documented August 23, 2016. The World Parkinson's Disease Association is an alliance of members from all over the world who have come together to share information about Parkinson's disease. In order to further Parkinson's research and better the condition of those diagnosed with the disease, the Association: establishes computerized connections; takes part in and/or finances research activities; urges pharmaceutical companies and government institutions of the various countries to support the guidelines recommended by the associations of Parkinson's patients; and coordinates and promotes interchange of information among its members with the aim of solving problems of mutual interest.
