Proper Citation: Haz-Map: Occupational Exposure to Hazardous Agents (RRID:SCR_002365)

Description: Occupational health database designed for health and safety professionals and for consumers seeking information about the adverse effects of workplace exposures to chemical and biological agents. The main links in Haz-Map are between chemicals and occupational diseases. These links have been established using current scientific evidence. Haz-Map shows the diseases linked to each agent and the agents linked to each disease. Agents are chemical such as formaldehyde, or biological such as grain dust. Haz-Map links jobs and hazardous job tasks with occupational diseases and their symptoms. In Haz-Map, chronic occupational diseases are linked to both jobs and industries, while acute diseases and infectious diseases are linked only to jobs. Cancers are not linked to jobs, industries or findings. The information in Haz-Map comes from textbooks, journal articles, the Documentation of the Threshold Limit Values (published by ACGIH), and electronic databases such as NLM's Hazardous Substances Data Bank (HSDB). Haz-Map staff classifies, summarizes, and regularly updates the information found in the database.

Abbreviations: Haz-Map

Synonyms: Haz-Map: Information on Hazardous Chemicals and Occupational Diseases

Resource Type: data or information resource, database

Defining Citation: PMID:18335440, PMID:15148019

Keywords: environmental, epidemiology, exposure, agent, biological, chemical, disease,

hazardous, health, hygiene, medicine, occupational, safety, substance, symptom, textbook, toxic, toxicology, journal article

Funding:

Resource Name: Haz-Map: Occupational Exposure to Hazardous Agents

Resource ID: SCR_002365

Alternate IDs: nif-0000-21187

Record Creation Time: 20220129T080213+0000

Record Last Update: 20250424T064545+0000

Ratings and Alerts

No rating or validation information has been found for Haz-Map: Occupational Exposure to Hazardous Agents.

No alerts have been found for Haz-Map: Occupational Exposure to Hazardous Agents.
