Amplify

RRID:SCR_002956

Type: Tool

Proper Citation

Amplify (RRID:SCR_002956)

Resource Information

URL: <http://engels.genetics.wisc.edu/amplify/>

Proper Citation: Amplify (RRID:SCR_002956)

Description: A freeware Macintosh program for simulating and testing polymerase chain reactions (PCRs) that can also be used as a tool for designing primers by evaluating candidates. It's a program to simulate the polymerase chain reaction. You specify a target sequence and primers, and it predicts the result. It's useful for planning experiments, testing primers and teaching about PCR. Amplify draws a diagram of the predicted results showing all expected primer matches and amplified fragments. Clicking on any of these objects gives additional information about them.

Abbreviations: Amplify

Synonyms: Amplify 3

Resource Type: simulation software, software application, software resource

Keywords: amplify, simulation, polymerase chain reaction, macos x, primer design, target sequence, primer

Availability: Free, Available for download, Freely available

Resource Name: Amplify

Resource ID: SCR_002956

Alternate IDs: nif-0000-30103

Record Creation Time: 20220129T080216+0000

Record Last Update: 20260912T195549+0000

Ratings and Alerts

No rating or validation information has been found for Amplify.

No alerts have been found for Amplify.
