Description: An independent global pharmaceutical company that produces specialty pharmaceutical products including generic drugs and imaging agents. They manufacture and distribute products used in diagnostic procedures and in the treatment of pain and related conditions. This includes the development, manufacture and distribution of specialty pharmaceuticals, active pharmaceutical ingredients, contrast products and radiopharmaceuticals. They are the largest U.S. supplier, by prescription, of opioid pain medications and the largest U.S. supplier of the medical isotope technetium-99m. The company is among the top 10 generic pharmaceuticals manufacturers in the United States. The company is also the largest producer of bulk acetaminophen. Mallinckrodt also produces cocaine derived from the Coca-Cola coca leaves, extracted by the Stepan Company. (Adapted from Wikipedia, 10/2014)
