Alzheimers Disease Genetics Consortium

RRID:SCR_004004

Type: Tool

Proper Citation

Alzheimers Disease Genetics Consortium (RRID:SCR_004004)

Resource Information

URL: <http://www.adgenetics.org/>

Proper Citation: Alzheimers Disease Genetics Consortium (RRID:SCR_004004)

Description: Consortium to conduct genome-wide association studies (GWAS) to identify genes associated with an increased risk of developing late-onset Alzheimer's disease (LOAD). The goal of the ADGC is to identify genetic variants associated with risk for AD. It plans to do this through the following collaborative goals: # Identify genes responsible for AD susceptibility # Identify AD sub-phenotype genes rate-of-progression plaque / tangle load / distribution biomarker variability # Generate a genetic data resource for the AD research community Data generated by ADGC is available at the following website: <https://www.niagads.org/content/alzheimers-disease-genetics-consortium-adgc-collection>

Abbreviations: ADGC

Synonyms: Alzheimer's Disease Genetics Consortium (ADGC), Alzheimer's Disease Genetics Consortium

Resource Type: consortium, data or information resource, data set, organization portal, portal

Keywords: genome-wide association study, gene, biomarker, basic science, genetic variant, genetics, african-american, caucasian

Funding: NIA U01AG032984

Resource Name: Alzheimers Disease Genetics Consortium

Resource ID: SCR_004004

Alternate IDs: nlx_158415

Record Creation Time: 20220129T080222+0000

Record Last Update: 20260821T193726+0000

Ratings and Alerts

No rating or validation information has been found for Alzheimers Disease Genetics Consortium.

No alerts have been found for Alzheimers Disease Genetics Consortium.
