Proper Citation: USIDNET: US Immunodeficiency Network (RRID:SCR_004672)

Description: Research consortium to advance scientific research in the primary immune deficiency diseases (PIDD) and: * Assemble and maintain a registry of patients with primary immunodeficiency diseases to provide a minimum estimate of the prevalence of each disorder in the United States. Provide a comprehensive clinical picture of each disorder and act as a resource for clinical and laboratory research. * Establish a multifaceted mentoring program to introduce new investigators into the field and stimulate interest and research in primary immune deficiency diseases. * Establish an advisory/review committee to maintain a cell/DNA Repository of biologic material from well-characterized PIDD patients for the advancement of scientific research USIDNET operates a large database of patient information for your use. The purpose and scope of this project is to assemble and maintain a registry of residents with primary immunodeficiency diseases. The project was started with the Registry of U.S. Residents with Chronic Granulomatous Disease. Since then, the registry has been expanded and now collects data on all primary immunodeficiency disorders. The following are just a few of the diseases housed in the registry: Chronic Granulomatous Disease, Common Variable Immunodeficiency Disease, DiGeorge Anomaly, Hyper IgM Syndrome, Leukocyte Adhesion Defect, Severe Combined Immunodeficiency Disease, Wiskott-Aldrich Syndrome, X-Linked Agammaglobulinemia Physicians who would like to register their patients or access the registry are encouraged to contact Onika Davis or Lamar Hamilton, USIDNET team, at [odavis \(at\) primaryimmune.org](mailto:odavis@primaryimmune.org), or [lhamilton \(at\) primaryimmune.org](mailto:lhamilton@primaryimmune.org)

Abbreviations: USIDNET

Synonyms: United States Immunodeficiency Network, US Immunodeficiency Network

Resource Type: data or information resource, patient registry, people resource, portal, topical portal

Keywords: patient information, primary immunodeficiency disease, immunodeficiency disease, disease, immune deficiency disease, clinical trial, clinical, primary immune deficiency disease

Related Condition: Primary immune deficiency disease, Chronic Granulomatous Disease, Common Variable Immunodeficiency Disease, DiGeorge Anomaly, Hyper IgM Syndrome, Leukocyte Adhesion Defect, Severe Combined Immunodeficiency Disease, Wiskott-Aldrich Syndrome, X-Linked Agammaglobulinemia

Funding: Immune Deficiency Foundation ;
NIH ;
NIAID

Availability: The community can contribute to this resource

Resource Name: USIDNET: US Immunodeficiency Network

Resource ID: SCR_004672

Alternate IDs: nlx_143859

Record Creation Time: 20220129T080225+0000

Record Last Update: 20260821T193725+0000

Ratings and Alerts

No rating or validation information has been found for USIDNET: US Immunodeficiency Network.

No alerts have been found for USIDNET: US Immunodeficiency Network.
