# **Binding and Expression Target Analysis**

RRID:SCR\_005396 Type: Tool

## **Proper Citation**

Binding and Expression Target Analysis (RRID:SCR\_005396)

## **Resource Information**

URL: http://cistrome.org/BETA/

Proper Citation: Binding and Expression Target Analysis (RRID:SCR\_005396)

**Description:** A software package that integrates ChIP-seq of transcription factors or chromatin regulators with differential gene expression data to infer direct target genes. BETA has three functions: (1) to predict whether the factor has activating or repressive function; (2) to infer the factor'''s target genes; and (3) to identify the motif of the factor and its collaborators which might modulate the factor'''s activating or repressive function. BETA requires ~2GB RAM and 1h for the whole procedure. BETA may run on the web server at Cistrome or may be downloaded.

#### Abbreviations: BETA

Synonyms: BETA - Binding and Expression Target Analysis

**Resource Type:** service resource, production service resource, data analysis service, analysis service resource, software resource

#### Defining Citation: PMID:24263090

**Keywords:** transcription factor, chromatin regulator, transcriptome, chip-seq, cistrome, gene expression, target gene, motif, differential gene expression

#### Funding:

Availability: Registration required, Open unspecified license

**Resource Name:** Binding and Expression Target Analysis

Resource ID: SCR\_005396

Alternate IDs: OMICS\_00515

**Record Creation Time:** 20220129T080230+0000

Record Last Update: 20250429T055003+0000

## **Ratings and Alerts**

No rating or validation information has been found for Binding and Expression Target Analysis.

No alerts have been found for Binding and Expression Target Analysis.

## Data and Source Information
