Description: THIS RESOURCE IS NO LONGER IN SERVICE, documented on August 19,2021. A model of peer review, providing independent and standardized peer review that can be accepted and shared across all types of journals and distribution systems. Rubriq can provide rigorous reviews by the same qualified peers who review for journals, but with a standardized scorecard that can be used in any publishing model. The system will enable faster, more consistent reviews, and will help match papers with the right journals. Authors, reviewers and journal editors are encouraged to sign up in the earliest phases, so you can be among the first to participate and provide feedback.
