Description: The LBDA is a Lewy Body Disease (LBD) information resource for lewy body patients, caregivers, and medical professionals. It provides general information on LBD, including diagnosis, symptoms, treatments, etc., as well as providing links to support resources and an LBD online community. For professionals, the site also provides information on patient care, current LBD research and publications, and diagnostics information. LBDA offers many support resources for those affected by LBD and for their loved ones. These resources include local support group meeting information, online support groups, and user forums where users can find information or ask any questions they may have about the disease. A portion of the site is also dedicated to those who wish to help, either through participation in clinical trials, donations, or volunteering. LBDA also offers information on upcoming LBD-related events. LBDA is located Atlanta, GA. :NIF thanks the : [:Parkinson's Disease Foundation](#) : :for their referral of this resource to us.
