### Resource Information

**URL:** <http://medgen.ugent.be/rtpimerdb/>

**Proper Citation:** RTPrimerDB- The Real-Time PCR and Probe Database (RRID:SCR\_007106)

**Description:** Database for primer and probe sequences used in real-time PCR assays employing popular chemistries (SYBR Green I, Taqman, Hybridization Probes, Molecular Beacon) to prevent time-consuming primer design and experimental optimization, and to introduce a certain level of uniformity and standardization among different laboratories. Researchers are encouraged to submit their validated primer and probe sequence, so that other users can benefit from their expertise. The database can be queried using the official gene name or symbol, Entrez or Ensembl Gene identifier, SNP identifier, or oligonucleotide sequence. Different options make it possible to restrict a query to a particular application (Gene Expression Quantification/Detection, DNA Copy Number Quantification/Detection, SNP Detection, Mutation Analysis, Fusion Gene Quantification/Detection, Chromatin immunoprecipitation (ChIP)), organism (Human, Mouse, Rat, and others) or detection chemistry.

**Abbreviations:** RTPrimerDB

**Resource Type:** data or information resource, data repository, database, service resource, storage service resource

**Defining Citation:** [PMID:18948285](#), [PMID:16381959](#), [PMID:12519963](#)

**Keywords:** primer, probe, sequence, real-time pcr, gene, assay, real-time pcr assay, FASEB list

**Availability:** Public, The community can contribute to this resource

**Resource Name:** RTPrimerDB- The Real-Time PCR and Probe Database

**Resource ID:** SCR\_007106

**Alternate IDs:** nif-0000-03431, OMICS\_02322

**Record Creation Time:** 20220129T080239+0000

**Record Last Update:** 20260821T193801+0000

---

## Ratings and Alerts

No rating or validation information has been found for RTPrimerDB- The Real-Time PCR and Probe Database.

No alerts have been found for RTPrimerDB- The Real-Time PCR and Probe Database.
