miRGator

RRID:SCR_007793

Type: Tool

Proper Citation

miRGator (RRID:SCR_007793)

Resource Information

URL: <http://mirgator.kobic.re.kr/>

Proper Citation: miRGator (RRID:SCR_007793)

Description: Database of compiled, public, deep sequencing miRNA data and several novel tools to facilitate exploration of massive data. The miR-seq browser supports users to examine short read alignment with the secondary structure and read count information available in concurrent windows. Features such as sequence editing, sorting, ordering, import and export of user data are of great utility for studying iso-miRs, miRNA editing and modifications. miRNA target relation is essential for understanding miRNA function. Coexpression analysis of miRNA and target mRNAs, based on miRNA-seq and RNA-seq data from the same sample, is visualized in the heat-map and network views where users can investigate the inverse correlation of gene expression and target relations, compiled from various databases of predicted and validated targets.

Abbreviations: miRGator

Synonyms: miRGator: an integrated system for functional annotation of microRNAs

Resource Type: data or information resource, database

Defining Citation: [PMID:23193297](#), [PMID:21062822](#), [PMID:17942429](#)

Keywords: genome, functional annotation, microRNA, expression profile, mir-seq, miRNA target relation, expression correlation, FASEB list

Funding: Korean Rural Development Administration 20070401034010;
Korean Ministry of Science and Technology ;
Ministry of Education and Human Resources Development

Resource Name: miRGator

Resource ID: SCR_007793

Alternate IDs: nif-0000-03136, OMICS_00363

Alternate URLs: <http://203.255.191.19/MEXWebApp/>,
