MIPS Neurospora crassa Genome Database

RRID:SCR_007794

Type: Tool

Proper Citation

MIPS Neurospora crassa Genome Database (RRID:SCR_007794)

Resource Information

URL: <http://mips.helmholtz-muenchen.de/genre/proj/ncrassa/>

Proper Citation: MIPS Neurospora crassa Genome Database (RRID:SCR_007794)

Description: A database of the molecular structure and functional network of the entirely sequenced, filamentous fungus *Neurospora crassa*. The underlying sequence is the release 7 of the high quality draft sequence of the Broad Institute. The goal is to provide a comprehensive genome database in the Genome Research Environment in parallel with other fungal genomes to enable in depth fungal comparative analysis. The database contains the manually modelled gene set generated in the German *Neurospora* genome project and is combined with Broad calls from release 7 version 3.

Synonyms: MNCDB, MIPS

Resource Type: data or information resource, database

Keywords: fungus

Resource Name: MIPS Neurospora crassa Genome Database

Resource ID: SCR_007794

Alternate IDs: nif-0000-03151

Record Creation Time: 20220129T080243+0000

Record Last Update: 20260912T200153+0000

Ratings and Alerts

No rating or validation information has been found for MIPS Neurospora crassa Genome Database.

No alerts have been found for MIPS Neurospora crassa Genome Database.
