## Probabilistic atlas of the human cerebellum

RRID:SCR 008797

Type: Tool

## **Proper Citation**

Probabilistic atlas of the human cerebellum (RRID:SCR 008797)

#### Resource Information

**URL:** <a href="http://www.icn.ucl.ac.uk/motorcontrol/imaging/propatlas.htm">http://www.icn.ucl.ac.uk/motorcontrol/imaging/propatlas.htm</a>

**Proper Citation:** Probabilistic atlas of the human cerebellum (RRID:SCR\_008797)

**Description:** A probabilistic atlas of the cerebellar lobules in the space defined by the MNI152 template. The anatomical definitions are based on the fMRI atlas of an individual cerebellum by Schmahmann et al. (2000). To obtain a representative anatomical atlas, we separately masked the lobules on T1-weighted MRI scans (1mm isotropic resolution) of 20 healthy young participants (10 male, 10 female, average age 23.7 yrs). Using a different set of 23 participants, we also masked the deep cerebellar nucelei. These cerebella were then aligned using different commonly used normalization algorithms. The resultant probabilistic maps allow for the valid assignment of functional activations to specific cerebellar lobules and the nuclei, while providing a quantitative measure of the certainty of such assignments. Furthermore, maximum probability maps derived from these atlases can be used to define regions of interest (ROIs) in functional neuroimaging and neuroanatomical research. The atlas is included in the newer releases of FSL and the Anatomy toolbox. More version of the atlases for use with MRICroN are also available.

Abbreviations: Probablistic Cerebellar Atlas

Resource Type: data or information resource, atlas

**Defining Citation: PMID:19457380** 

**Keywords:** adult, early adult, cerebellum, functional magnetic resonance imaging

Funding: NSF BSC 0726685

Resource Name: Probabilistic atlas of the human cerebellum

Resource ID: SCR\_008797

Alternate IDs: nlx\_144298

**Record Creation Time:** 20220129T080249+0000

**Record Last Update:** 20250516T053923+0000

### **Ratings and Alerts**

No rating or validation information has been found for Probabilistic atlas of the human cerebellum.

No alerts have been found for Probabilistic atlas of the human cerebellum.

#### Data and Source Information
