PROC QTL

RRID:SCR_009338

Type: Tool

Proper Citation

PROC QTL (RRID:SCR_009338)

Resource Information

URL: <http://www.statgen.ucr.edu/software.html>

Proper Citation: PROC QTL (RRID:SCR_009338)

Description: Software application that is a user defined SAS procedure for mapping quantitative trait loci (QTL). Since this procedure is not a built-in SAS procedure, users need to obtain a copy of the executable file of PROC QTL and install the software in their personal computers before PROC QTL can be executed. Of course, users need a regular SAS license prior to the installation of PROC QTL. Once PROC QTL is installed, it can be called just like any other SAS procedures. Users will not notice the differences between this customized procedure and other built-in SAS procedures. (entry from Genetic Analysis Software)

Abbreviations: PROC QTL

Resource Type: software application, software resource

Keywords: gene, genetic, genomic, c++, ms-windows

Resource Name: PROC QTL

Resource ID: SCR_009338

Alternate IDs: nlx_154551

Record Creation Time: 20220129T080252+0000

Record Last Update: 20260904T000414+0000

Ratings and Alerts

No rating or validation information has been found for PROC QTL.

No alerts have been found for PROC QTL.
