# **eConnectome**

RRID:SCR\_009618 Type: Tool

#### **Proper Citation**

eConnectome (RRID:SCR\_009618)

### **Resource Information**

URL: http://econnectome.umn.edu/

Proper Citation: eConnectome (RRID:SCR\_009618)

**Description:** An open-source MATLAB software package for imaging brain functional connectivity from electrophysiological signals. It provides interactive graphical interfaces for EEG/ECoG/MEG preprocessing, source estimation, connectivity analysis and visualization. Connectivity from EEG/ECoG/MEG can be mapped over sensor and source domains. This package is designed for use by researchers in neuroscience, psychology, cognitive science, clinical neurophysiology, neurology and other disciplines. The graphical interface-based platform requires little programming knowledge or experience with MATLAB. eConnectome is developed by the Biomedical Functional Imaging and Neuroengineering Laboratory at the University of Minnesota, directed by Dr. Bin He. The visualization module is jointly developed with Drs. Fabio Babiloni and Laura Astolfi at the University of Rome La Sapienza.

Abbreviations: eConnectome

Synonyms: Electrophysiological Connectome

**Resource Type:** image processing software, software application, image analysis software, data processing software, software resource

**Keywords:** eeg, meg, electrocorticography, forward - inverse, matlab, microsoft, modeling, multivariate analysis, region of interest, segmentation, statistical operation, visualization, windows, windows xp

Funding: NIBIB RO1 EB006433; NIBIB RO1 EB007920 Availability: GNU General Public License

Resource Name: eConnectome

Resource ID: SCR\_009618

Alternate IDs: nlx\_155844

Alternate URLs: http://www.nitrc.org/projects/econnectome

Record Creation Time: 20220129T080254+0000

Record Last Update: 20250509T055921+0000

### **Ratings and Alerts**

No rating or validation information has been found for eConnectome.

No alerts have been found for eConnectome.
