**Description:** Core facility that provides the following services: Use of instruments service, Training service. The Harvard Center for Biological Imaging (HCBI) has been created to foster collaborative research in the most state-of-the-art facility available. To do this, we have set up a unique partnership with Carl Zeiss International in which our microscopy systems are continually replaced every 2-3 years ensuring we always have the most up-to-date equipment possible. The facility is open 24 hours/day, 7 days/week and access to the facility is open to all Harvard investigators as well as to affiliates and investigators from collaborating institutions.
