Proper Citation: European Collection of Cell Cultures (RRID:SCR_010617)

Description: A cell culture collection to service the research community and provide an International Depository Authority recognized patent depository for Europe. The collections currently hold over 40,000 cell lines representing 45 different species, 50 tissue types, 300 HLA types, 450 monoclonal antibodies and at least 800 genetic disorders. ECACC has developed a comprehensive range of cell culture services and diversified into new product areas such as high quality genomic DNA extracted from cell lines. ECACC is one of the four collections which constitute the Health Protection Agency Culture Collections (HPA Culture Collections). Its products include: General Cell Collection, Hybridoma Collection, Primary Cells, Neuron Culture Kits, HepaRG Cells, GPCR Cell Lines, HLA-Typed Collection, Human Random Control Collection, Human Genetic Collection, and DNA Products. Its services include: Assay Ready Cells, Cell Culture Management Services, Contract Cell Culture, Cell Line Identity Verification, Genetic Support Services, Mycoplasma Testing and Eradication, Patent Deposits, Safe Deposits, Sterility Testing, and Training.

Abbreviations: ECACC

Synonyms: ECACC: European Collection of Cell Cultures

Resource Type: biomaterial supply resource, cell repository, material resource

Keywords: cell, cell culture, hybridoma, primary cell, herparg cell, gpcr cell line, hla, dna, rna

Funding:

Availability: Available to the research community

Resource Name: European Collection of Cell Cultures

Resource ID: SCR_010617

Alternate IDs: nlx_54326

Record Creation Time: 20220129T080259+0000

Record Last Update: 20250419T055249+0000

Ratings and Alerts

No rating or validation information has been found for European Collection of Cell Cultures.

No alerts have been found for European Collection of Cell Cultures.
