Proper Citation: National Institute of Agrobiological Sciences; Ibaraki; Japan

(RRID:SCR\_011420)

**Description:** The largest agricultural research institute in Japan for basic life sciences focusing on understanding the biological phenomena of agriculturally important plants, insects, microbes and animals to create innovative technologies, and eventually contribute to the solution of global issues such as food shortage due to rapid population growth and environmental problems due to climate change. Research activities are pursued in a 5-year cycle to intensify all efforts towards a common goal and to forge the way for new breakthroughs with direct impact to agricultural productivity.

Abbreviations: NIAS, NIAR

**Synonyms:** Institute of Agrobiological Sciences

**Resource Type:** institution
