Preventing Early Renal Loss in Diabetes (PERL) (RRID:SCR_015862)

Resource Information

URL: http://www.perl-study.org

Proper Citation: Preventing Early Renal Loss in Diabetes (PERL) (RRID:SCR_015862)

Description: PERL is a clinical trial for people with type 1 diabetes who have early signs of kidney problems. Its goal is to test a new way to reduce loss of kidney function using a safe and inexpensive medicine.

Abbreviations: PERL

Synonyms: Preventing Early Renal Loss in Diabetes

Resource Type: portal, data or information resource, disease-related portal, project portal, data set, topical portal

Keywords: kidney, type 1 diabetes, diabetes, clinical trial, medication

Related Condition: Type 1 diabetes, Diabetes, Diabetic kidney disease

Funding: NIDDK UC4 DK101108

Availability: Available to the scientific community

Resource Name: Preventing Early Renal Loss in Diabetes (PERL)

Resource ID: SCR_015862

Record Creation Time: 20220129T080327+0000

Record Last Update: 20250426T060513+0000

Ratings and Alerts

No rating or validation information has been found for Preventing Early Renal Loss in Diabetes (PERL).

No alerts have been found for Preventing Early Renal Loss in Diabetes (PERL).
