Proper Citation: Chronic Prostatitis Collaborative Research Network Clinical Trial- Alfuzosin (RRID:SCR_015886)

Description: Clinical trial by the Chronic Prostatitis Collaborative Research Network (CPCRN chronic prostatitis/chronic pelvic pain syndrome (CP/CPPS)) that was established to conduct randomized clinical trials of promising therapies for this syndrome. In response to the findings of previous trials, the CPCRN conducted a multicenter, randomized, placebo-controlled trial of alfuzosin to determine whether the symptoms CP/CPPS could be reduced in men who had recently received a diagnosis of CP/CPPS and who had not previously been treated with this class of drug.

Synonyms: Efficacy & Safety Study of Pregabalin to Treat Chronic Prostatitis/Chronic Pelvic Pain Syndrome (CP/CPPS) (CPCRN RCT#2)

Resource Type: data set, data or information resource

Keywords: chronic, prostatitis, alfuzosin, collaborative research, clinical trial, clinical study

Related Condition: Chronic Prostatitis

Funding:

Availability: Available upon request, Public, Free

Resource Name: Chronic Prostatitis Collaborative Research Network Clinical Trial-

Alfuzosin

Resource ID: SCR_015886
