Proper Citation: Nornir (RRID:SCR_016458)

Description: Software application to take large sets of overlapping images in 2D and 3D and produce registered 3D volumes of any size and scale. Registered slices may be exported as a single large images or viewed/annotated with Viking viewer. Used on transmission electron microscopy, scanning electron microscopy images, and light microscopy images.

Resource Type: data acquisition software, data processing software, image acquisition software, software application, software resource, software toolkit

Keywords: overlapping, image, 2D, 3D, produce, registered, aligned, 3D volume, microscopy

Availability: Free, Available for download, Freely available

Resource Name: Nornir
