Proper Citation: VecScreen (RRID:SCR\_016577)

**Description:** Software tool to screen a nucleic acid sequence for vector contamination. Detects foreign DNAs such as vector, linker, adapter, and primer regions involved in nucleotide sequences by using blast search against vector sequence database. The main unit of this tool is vecscreen program obtainable from NCBI.

**Resource Type:** data analysis software, sequence analysis software, software resource, data processing software, service resource, software application

Keywords: screen, sequence, nucleic acid, segment, vector, contamination

Funding:

Availability: Free, Available for download, Freely available

Resource Name: VecScreen

Resource ID: SCR\_016577
