Proper Citation: BD Biosciences: FACSAria II Cell Sorter (RRID:SCR_018934)

Description: High-speed fluorescence-activated cell sorter (FACS) used in biological and medical research to analyze and physically separate specific types of cells from a complex mixture. It works by passing individual cells in a fluid stream past lasers and capturing target cells based on their unique light-scattering and fluorescent properties. Cell sorter features hardware and software enhancements that improve overall ease of use, flexibility, and aseptic capability. Offers new options in lasers and nozzles to support more advanced multicolor applications. Built on fixed alignment technology. FACSAria II cell sorter is first generation of BD FACSAria system where flow cell is in true fixed alignment with laser, to reduce startup time and improve reproducibility.

Synonyms: , BD FACS Aria II Cell Sorter, BD Biosciences FACS Aria II Cell Sorter

Resource Type: instrument resource

Keywords: BD Bioscience, Cell sorter, FACSAria II, flow cell, fixed alignment, laser, reduce startup time, improve reproducibility, advanced multicolor application, instrument, equipment,

Specification URL: https://raw.githubusercontent.com/SciCrunch/RRID-Instruments/refs/heads/main/PDF/SCR_018934.pdf

Resource Name: BD Biosciences: FACSAria II Cell Sorter

Resource ID: SCR_018934

Alternate IDs: , SCR_018091, Model_Number_FACSAria II

Old URLs: <https://www.bd.com/resource.aspx?IDX=7004>

Record Creation Time: 20220129T080342+0000

Record Last Update: 20260815T182604+0000

Ratings and Alerts

No rating or validation information has been found for BD Biosciences: FACSAria II Cell Sorter.

No alerts have been found for BD Biosciences: FACSAria II Cell Sorter.
