Colorado School of Mines Shared Instrumentation Facility Surface Characterization and Thin Film Deposition Core Facility

RRID:SCR_022047

Type: Tool

Proper Citation

Colorado School of Mines Shared Instrumentation Facility Surface Characterization and Thin Film Deposition Core Facility (RRID:SCR_022047)

Resource Information

URL: https://www.mines.edu/shared-facilities/project_category/nanofabrication/

Proper Citation: Colorado School of Mines Shared Instrumentation Facility Surface Characterization and Thin Film Deposition Core Facility (RRID:SCR_022047)

Description: Facility houses cleanrooms with processing equipment for making and characterizing electronic devices, thin film deposition tools for creation of metallic and ceramic thin film devices, and characterization lab with tools for surface, morphological, and optical characterization of materials.

Synonyms: Surface Characterization and Thin Film Processing, Colorado School of Mines Shared Instrumentation Facility Cleanroom and Thin Film Processing

Resource Type: access service resource, core facility, service resource

Keywords: USEdit, ABRF, making and characterizing electronic devices, thin film deposition tools, creation of metallic and ceramic thin film devices,

Availability: open

Resource Name: Colorado School of Mines Shared Instrumentation Facility Surface Characterization and Thin Film Deposition Core Facility

Resource ID: SCR_022047

Alternate IDs: ABRF_1325

Alternate URLs: <https://coremarketplace.org/?FacilityID=1325&citation=1>

Record Creation Time: 20220421T050138+0000

Record Last Update: 20260821T194211+0000

Ratings and Alerts

No rating or validation information has been found for Colorado School of Mines Shared Instrumentation Facility Surface Characterization and Thin Film Deposition Core Facility.

No alerts have been found for Colorado School of Mines Shared Instrumentation Facility Surface Characterization and Thin Film Deposition Core Facility.
