STARNET

RRID:SCR_025238

Type: Tool

Proper Citation

STARNET (RRID:SCR_025238)

Resource Information

URL: <http://starnet.mssm.edu/>

Proper Citation: STARNET (RRID:SCR_025238)

Description: Web interactive browser to visualize data and perform gene set enrichment analysis along with gene and SNP lookup. Web interface used to query STARNET datasets and downstream analysis which includes RNAseq from 7 tissues: blood, free internal mammary artery (MAM), atherosclerotic aortic root (AOR), subcutaneous fat (SF), visceral abdominal fat (VAF), skeletal muscle (SKLM), and liver (LIV). Paired SNP genotyping data is included and utilized for tissue expression quantitative trait loci (eQTL), CAD heritability (H2), co-expression networks and gene regulatory networks.

Abbreviations: STARNET

Synonyms: Stockholm-Tartu Atherosclerosis Reverse Networks Engineering Task

Resource Type: data access protocol, software resource, source code, web service

Defining Citation: [PMID:36276926](#)

Keywords: cross-tissue co-expression analysis, STARNET multitissue gene expression data, cardiovascular disease patients,

Funding: American Heart Association ;
AstraZeneca ;
