Proper Citation: novoSpaRc (RRID:SCR_027635)

Description: Software package for flexible spatial reconstruction of single-cell gene expression with optimal transport. Framework for de novo spatial reconstruction of single-cell gene expression. Assigns cells to tissue locations using probabilistic/optimal-transport models, with or without prior marker information, and returns spatial maps and assignment probabilities.

Resource Type: software toolkit, software resource

Defining Citation: [PMID:34349282](#)

Keywords: Assign cells to tissue locations, flexible spatial reconstruction, single-cell gene expression, optimal transport,

Availability: Free, Available for download, Freely available

Resource Name: novoSpaRc

Resource ID: SCR_027635

Alternate URLs: <https://github.com/rajewsky-lab/novosparc>,
<https://pypi.org/project/novosparc/>

License: BSD-3-Clause license

Record Creation Time: 20251108T062234+0000

Record Last Update: 20260810T040929+0000

Ratings and Alerts

No rating or validation information has been found for novoSpaRc.

No alerts have been found for novoSpaRc.
