**Proper Citation:** Dartmouth College COBRE Institute for Biomolecular Targeting bioMT Molecular Tools Core Facility (RRID:SCR\_028983)

**Description:** Core is a bioMT and Dartmouth community resource that supports research programs via production of high quality recombinant proteins. Core assists with the decision-making process, providing expert advice and necessary training on construct design, host selection, optimization of expression conditions and development of purification schemes, makes equipment available to the community and trains researchers to produce recombinant proteins.

**Synonyms:** bioMT Molecular Tools Core

**Resource Type:** access service resource, core facility, service resource

**Keywords:** ABRF, recombinant proteins production services, recombinant proteins,
