Proper Citation: RRID:RGD_60985

Description: Rattus norvegicus with name BN from RGD.

Species: Rattus norvegicus

Notes: Billingham and Silvers 1958, from a brown mutation maintained by DH King and P Aptekman in a pen-bred colony (Billingham and Silvers 1959). A plasma kininogen-deficient mutant strain (BN/Ka) has been described in which release of heat-induced substance P is defective (Tang et al, 1994) and response to the hypertensive effects of deoxycorticosterone acetate salt is much faster than in normal BN rats (Majima et al, 1995a,b).
