Proper Citation: RRID:RGD_70410

Description: Rattus norvegicus with name AA from RGD.

Species: Rattus norvegicus

Synonyms: , Alcohol

Notes: Wistar rats were outbred and selected for breeding animals that differ in their alcohol consumption. Marked difference between the strains and sex was visible by the eighth generation. After puberty the animals were isolated and given 10% alcohol as drink for 10 days, after which they had access to water and alcohol for 4 weeks. The quantity of fluid intake was measured daily. Fluid intake of animals varied greatly in animals consuming the same amount of alcohol per unit body weight, so alcohol intake was used as a phenotypic measure.

Catalog Number: 70410

Background: inbred

Database: Rat Genome Database (RGD)

Database Abbreviation: RGD

Availability: Unknown

Alternate IDs: 70410

Organism Name: AA

Record Creation Time: 20230509T191928+0000

Record Last Update: 20260919T201815+0000
