Proper Citation: RRID:RRRC_00058

Description: Rattus norvegicus with name LN/MavRrrc from RGD.

Species: Rattus norvegicus

Notes: (taken from Lyon Hypertensive entry, see LH) In 1969 outbred Sprague-Dawley rats were selected for high systolic blood pressure using an indirect plethysmographic technique in pre-warmed unrestrained conscious rats. Three pairs were originally selected, and selection was continued with brother x sister mating. Strain LN was maintained as a normotensive control, and LL as a hypotensive strain. (see Vincent et al 1984, and Vincent and Sassard, 1994 for reviews). [Rat Resource and Research Center](#)

Catalog Number: 00058

Background: inbred

Database: Rat Resource and Research Center (RRRC)

Database Abbreviation: RRRC

Availability: Cryopreserved Embryo; Cryopreserved Sperm

Alternate IDs: RGD_61015, 61015, RRRC_58, RRRC_058, RRRC_0058, RRRC_00058

Organism Name: LN/MavRrrc lyon normotensive

Record Creation Time: 20230607T202005+0000

Record Last Update: 20260829T095500+0000

Ratings and Alerts

No rating or validation information has been found for LN/MavRrrc lyon normotensive.

No alerts have been found for LN/MavRrrc lyon normotensive.
