Protocol Information

URL: <https://dx.doi.org/10.17504/protocols.io.74yhqwx>

Authors: Ian Mackay, Judy Northill

Group: protocols.io Ambassadors, Public Health Virology, Forensic and Scientific Services

Summary: This test is a modification to the World Health Organization's influenza A H3 TaqMan documented in 'WHO information for molecular diagnosis of influenza virus - update 1' (see file below). New primers were added and the WHO primers discarded. The test targets the hemagglutinin (HA) gene.
