Protocol Information

URL: <https://dx.doi.org/10.17504/protocols.io.biktkcwn>

Authors: Paul Whaley

Group: Systematic Reviews

Summary: A protocol template to help researchers follow the COSTER recommendations for conduct of systematic reviews. This instance covers the planning steps of a systematic review and will help with writing up the systematic review protocol. The intent is to convert COSTER from a checklist of things which need to be done into a sequence of actions which can be followed by a research team. When completing the protocol and either registering it or submitting it to a journal, please cite this instance of the protocol template and the parent manuscript, DOI 10.1016/j.envint.2020.105926.
