The influence of agricultural tillage practices on soil biodiversity: Soil metagenomic methods, microbial community

DOI:10.17504/protocols.io.efjbbkn

Type: Protocol

Proper Citation

Jeff Strohm, Robert Hanner, Richard J Heck 2018. The influence of agricultural tillage practices on soil biodiversity: Soil metagenomic methods, microbial community. protocols.io [dx.doi.org/10.17504/protocols.io.efjbbkn](https://doi.org/10.17504/protocols.io.efjbbkn)

Protocol Information

URL: <https://dx.doi.org/10.17504/protocols.io.efjbbkn>

Authors: Jeff Strohm, Robert Hanner, Richard J Heck

Summary: This protocol provides the sampling and molecular biology lab methods used to prepare microbial amplicons for MiSeq sequencing.

Affiliations: University of Guelph, University of Guelph, University of Guelph
